PROFESSIONAL SUMMARY

- Systematic Quantitative Trader with 5+ years of live automated execution experience across STIR futures (SR3/ZQ/SR1), Indian Equity F&O, and FX. Proven track record delivering upto 2.2 Sharpe ratios. Full-stack quant expertise spanning microstructure research, Python low-latency execution engines, and CVaR-based risk budgeting.

PROJECTS AND STRATEGIES

Meru Capital — Developed a fully automated systematic equity strategy for Indian markets with a **2.0 Sharpe Ratio net of transaction costs**; built walk-forward validation, portfolio construction, and risk-management pipeline. 2025 – Present

Multi-Broker Algo Trading Platform — Built a centralized dashboard to deploy and manage algorithmic strategies across brokers with real-time **P&L, positions, orders, exposure, risk controls, state, and broker health**. 2025 – Present

EDUCATION

- Indian Institute of Technology (IIT), Roorkee** Roorkee, India
Bachelor of Technology in Civil Engineering (76.46%) Jul 2017 – Jun 2021
 - Awarded **Best B.Tech Project** by Director, IIT Roorkee
- Certifications & Academic Achievements**
 - KVPY Fellow – All India Rank 1194 (Jul 2016)
 - FRM Level 1 Cleared; FRM Level 2 Appearing Nov 2026**
 - Relevant Courses:** Economics | Financial Mathematics | Game Theory | Numerical Methods | Statistics & Probability | Data Analysis & Visualization | Data Mining | System Analysis | Risk & Compliance (Basel)

TECHNICAL SKILLS

- Programming:** Python, C++, SQL
- Python:** NumPy, Pandas, Polars, SciPy, scikit-learn, PyTorch, Numba, AsyncIO, Multiprocessing
- Data/Infra:** PostgreSQL, Redis, Databricks
- Trading:** TT/ADL, XTS API, Kite Connect, Bloomberg, LSEG
- Quant:** Market Microstructure, Monte Carlo, VaR/CVaR, Portfolio Construction, Statistical Testing

PROFESSIONAL EXPERIENCE

- Aspora** Bangalore, India
Foreign Exchange Trader Jun 2026 – Present
 - Architected systematic FX forecasting & liquidity models projecting **\$450M/month** in cross-border flows, programmatically encoding regulatory constraints into automated hedging algorithms.
 - Engineered and deployed algorithmic prefunding execution strategies, processing **INR 2,000 Cr/month** with **under 1 bps** execution loss and zero settlement breaks.
 - Co-developed quantitative risk tools in Python, bridging real-time strategy design with low-latency delivery.
- NX Block Trades** Noida, India
Algorithmic Quantitative Trader Sept 2024 – Aug 2025
 - Developed, deployed, and managed an automated EMA momentum strategy across Indian Equity Futures, delivering **24% annualized returns** with a **2.2 Sharpe Ratio**.
 - Built an end-to-end Python research, backtesting, and live execution stack with walk-forward and out-of-sample validation, transaction-cost modelling, and automated signal-to-order execution.
 - Managed a **\$2M USD** systematic trading portfolio, applying Kelly Criterion and Monte Carlo simulations for dynamic position sizing and risk allocation.
- Futures First** Gurugram, India
SOFR Interest Rates Curve & Algo Trader Sept 2021 – Aug 2024
 - Developed 6 quantitative trading strategies for **SR3, ZQ, and SR1** futures with a **Sharpe ratio of 1.6**.
 - Built fair value and illiquidity-adjusted pricing models, capturing **30% volume** in far SR1 contracts.
 - Optimized Autospreader and ADL execution rules, improving fill rates by **50% YoY** through order flow analytics.
 - Managed a **\$1 M proprietary portfolio** with VaR- and scenario-based risk models and dynamic position sizing.
 - Created 25+ automated strategies and real-time dashboards, boosting execution efficiency by **75%**.

LEADERSHIP & CO-CURRICULAR

- Cognizance, IIT Roorkee** Nov 2017 – Mar 2021
Head – Finance & Sponsorship
 - Led 135+ member team to raise INR 60L in sponsorship for the annual fest, managing a INR 130L logistics budget.
 - Revamped the publicity strategy across 22 departments, increasing tier-2 sponsorships by **25%**.
